## Introduction

Narration	Screen
Welcome to TM for technical writers! My name is Maria, and I will be your trainer for this course, as we take a look at the translation workflow, and at how you as a technical writer can make the most of the Trados Studio Translation memory tool, reduce your translation costs, and make a real difference to translation quality.	 **TM for** technical writers — Welcome to **TM for** technical writers! Introduction / Start Course / Get Certified / Learn More **Course overview** Understand the translation workflow Reduce translation costs Leverage the Trados Studio translation memory tool Improve translation quality TM for technical writers: Introduction
Navigating this course couldn't be easier. To find out how, click the speech bubbles. - To move between screens, use the Back and Next buttons. - To control playback of course content, use the Play/Pause button - Each lesson includes navigation buttons that allow you to open the lesson overview, lesson content, lesson summary, and lesson quiz screens. - And you can also print a transcript of the current lesson using the Print button. - Once you have completed all the lessons in a module, you can Get Certified. - You can return to *this* introduction at any time by clicking the Introduction tab. - And for more *great* writing and translation resources, go to Learn More. So, let's get started! To access the modules in this course, go to the Start Course tab.	**TM for** technical writers — Welcome to **TM for** technical writers!
